ALEKSANDR BUSYGIN

Full-Stack Developer

Batumi, Georgia +995 511 703 655 endopresents5@gmail.com github.com/Endropr

SUMMARY

Full-stack developer with 3+ years of commercial experience. I build and ship products end to end: interface, API, and the server they run on. Recent work is an investor-facing Web3 domain platform and an AI product for a company registered in Georgia.

SKILLS

Languages	Go · PHP · JavaScript · TypeScript · HTML5 · CSS3
Frontend	React · Vite · Tailwind CSS
Backend	PostgreSQL · GORM · REST APIs · Node.js
Infrastructure	Docker · Linux · Nginx · Cloudflare · SSH · Git · DigitalOcean

EXPERIENCE

Full-Stack Developer

May 2026 – Present

OSECORP LLC · Batumi, Georgia

Nonilliard, an investor-facing Web3 domain ecosystem (10 TLD single lot), and Æther Forge, an AI product.

- Built and shipped the Nonilliard investor portal in React, TypeScript, Vite, and Tailwind: single-lot presentation, domain matrix, NDA flow, and a bilingual EN/RU interface.
- Put the site into production on DigitalOcean and Cloudflare: Nginx, SSL, cache control, WAF rules, and a Worker serving live traffic metrics across the domain family.
- Implemented brand, marketing, and investor sections to a fixed commercial brief: one price, one Genesis date, a Georgia-only process, and a clear split between lore and deal facts.
- Contributed to Æther Forge, an AI interface with multi-panel responses, voice input, and a staged answer animation.

Full-Stack Developer

2024 – May 2026

OOO «GorSet» · Tyumen, Russia

- Built and maintained the subscriber portal and internal CRM in React, HTML5, and CSS3 for 15,000+ daily users.
- Designed REST APIs in PHP and Go that connect billing to internal services, handling 50,000+ requests a day.
- Tuned PostgreSQL queries and indexing with GORM, cutting peak-hour query time by about 40%.
- Wrote an internal Telegram bot in Go for 20+ field engineers, reducing incident response time by about 25%.
- Containerized services with Docker and ran them on Linux, with Git for source control.

EDUCATION

Diploma, Information Systems and Programming

2023 – 2026

Tyumen College of Industrial and Social Technologies · Tyumen, Russia
